Profile Summary

Dedicated Frontend Developer with 2 years of experience in building responsive, user-centric web applications. Proficient in JavaScript, API integration using Axios, with a strong focus on clean code, performance optimization, and delivering seamless user experiences.

Experience

Edunext Technologies Private Limited

Sep 2022 – Present

Front-End Developer

Noida

- Developed and maintained responsive web applications using React, enhancing user experience and engagement.
- Integrated RESTful APIs using ajax to dynamically display data and improve application functionality.
- Collaborated closely with backend teams in a microservices environment, ensuring seamless integration of frontend components with Java microservices.
- Visualized complex data sets using Highcharts, creating interactive and informative charts to enhance data presentation.

Magic Edtech

Dec 2021 – Aug 2022

Digital Media Trainee

Noida

- Developed interactive and visually appealing e-books by incorporating HTML and CSS into EPUB files.
- Proficiently used HTML, CSS, and JavaScript for EPUB development, ensuring a seamless reading experience.
- Conducted comprehensive testing of EPUB files, employing both manual and automated testing tools to validate functionality, layout, and compatibility across various eReader devices and browsers

Projects

Superhero Hunter App | *CryptoJSJavascript, CSS, html and CryptoJS* | GitHub

June 2024

- A web app that lets users search for superheroes and view detailed information, including biographies, powers, and appearances, using real-time data from the Marvel API.
- The app uses CryptoJS for secure API requests, is responsive across various devices, and employs JavaScript for dynamic rendering and interactivity.
- Integrated robust error handling to manage API request failures and ensure a smooth user experience.

Timer Watch | *HTML, CSS, JavaScript* | GitHub

May 2024

- Developed a simple and functional timer watch using HTML, CSS, and JavaScript.
- Includes start, stop, and reset functionalities, with a clean and responsive user interface.
- Optimized the UI/UX by utilizing CSS animations and transitions to provide visual feedback.
- Ensured cross-browser compatibility, tested across different browsers for consistent performance.
